

# Strategic Roadmap Review and Assessment

Apps Associates Advisory Strategic Roadmap Review and Assessment is designed to assist customers with developing a plan to address their organization’s critical needs. Our advisory resources review topics such as ERP and CX application strategies, data governance and planning, AI, public cloud migration, and organizational change management to advise on an approach to address these initiatives.

## How does it work?

This engagement consists of several short, targeted sessions with senior leadership and key stakeholders who are responsible for developing strategy. During these sessions, our advisors will review what initiatives are currently being considered, educate on what other customers are doing in these areas, and discuss the approaches and prioritization of activity that makes customers most successful. A deep dive into specific critical areas that are raised can also be included in these sessions and will allow our team to bring in specific expertise to help address these areas. The engagement typically spans over a 1–2 week period.

## What are the deliverables?

From this session, the Apps' Advisory team will provide a comprehensive Executive Summary outlining the key findings and recommendations.

### The Executive Summary will include

#### Key Findings

- Applications Strategy
- Integration
- Applications Support
- AI
- Data Strategy

#### Recommendations

- Project Roadmap and Prioritization
- Risk Mitigation
- Change Management
- Applications Support
- How Apps and Others Can Help

#### A PowerPoint Presentation with Supporting Data and Insights
